

Ingrid Pärt

CURRICULUM VITAE

Education:

2009 – 2015

Estonian University of Life Sciences

Veterinary Medicine

Elective subject module for the 6th year: farm animals and equine medicine

1997 – 2008

Tallinn English College

Basic and general upper secondary education

State examinations in Mathematics (100%), Estonian (97%), English (95%), Biology (92%) and Chemistry (95%)

Relevant work experience:

**2015 December –
2016 August**

Camitz Equestrian Veterinary Practice

Part-time assistant of the vet, Denmark

A mainly ambulatory equine practice, with the emphasis on lameness and poor performance problems in riding horses.

Assisting the vet with lameness workups, diagnostic analgesia and imaging, different treatment protocols.

**2008 – 2009
+ several months
during summers of
2010 – 2015;
2015 August –
2015 September**

Stutteri Firfod

A horse breeding farm in Denmark

Working with stallions, brood mares, foals, assisting the stud vet with daily work: vaccinations, dewormings, treatment of low-grade wounds, colics, acute lameness issues, standing castrations, development and assessment of distal limb x-rays etc. During the last three summers I have been responsible for most of the reproduction work in the farm (observing heat, controlling follicle growth and insemination with fresh semen of ca 60 mares, pregnancy checks, taking semen from stallions and processing it, foal care). Riding and breaking in young horses.

2015

June – July

PS Flyinge & Partners

Externship in the equine breeding station in Sweden

Assisting the main vets with insemination of mares and collecting semen from stallions (plus all the preceding and following necessary various procedures – uterine lavages, endometritis treatment, processing of semen), following the protocols for synchronizing heat/ovulation, pregnancy checks by ultrasound etc.

2014 – 2015

Dec – Jan

Royal Veterinary College

Externship in the Equine Referral Hospital

Daily and out-of-hours care of inpatients (including status checks, administering of medications); assisting interns/residents and clinicians with various procedures, including routine and emergency work.

2014 Nov – Dec

Raul Velleste Ltd.

EMS at a small vet practice in Estonia

Taking part in ambulatory visits to dairy farms (occasionally also beef cattle, goats, horses, dogs and cats), assisting with diagnosis and treatment of various health issues in cows and calves + various routine procedures (vaccinations, disbudding, determination of pregnancy/estrus etc).

2012 July – Aug

Hyvinkää Hevossairaala

Externship at Hyvinkää Equine Hospital in Finland

Daily and out-of-hours care of inpatients (including status checks, administering of medications); assisting interns and clinicians with various procedures, including routine and emergency work.

Working with horses has been my main hobby for over 10 years, besides that I love to read, spend time with my friends and family, take part in different outdoor activities.
